QUICK TIPS

Just a few things to keep in mind when you are voicing your commands. For more tips and advice, please listen to the tutorial provided with your system.

1. ALWAYS WAIT FOR THE BEEP.

It's your system's way of letting you know it's ready to accept commands.

2. TALK LIKE YOU NORMALLY WOULD.

Say your commands clearly and talk at your normal speed.

3. KEEP BACKGROUND NOISE IN CHECK.

If others are talking while you are and the A/C fan is on high, the system may not hear you.

4. SAY IT THE WAY YOU SEE IT.

For example, say "call John Smith" if that is how his name appears in your phone – not "call Johnny Smith.

5. FEEL FREE TO INTERRUPT.

You can interrupt a long system response by pressing the VR button and waiting for the beep.
